

August 12, 2024

To whom it may concern:

This is to certify that the Fuse 1 and Fuse 1+ 30W Selective Laser Sintering (SLS) 3D printers are safe for unattended / overnight use when operating according to the prescriptions from the latest versions of Formlabs operation manuals and with Formlabs powders.

The printers are certified to the following relevant standards:

- EN 62368-1 / UL 62368-1 (Audio/Video, Information and Communication Technology Equipment)
- EN 60825-1 (Safety of Laser Products)

Technical documentation is kept at the Manufacturer's address.

Regards,

Bradley Heil
