**Ultimate Filament Storage Solution**

to Keep Filament Dry

PrintDry™
Vacuum-sealed Filament Container for 3D Printing

Max Spool Size: φ8"x 3.3"

1 Fasten the clamps.

2 Place the pump on the valve, and pump the air out.

Recommend **4~6 pumps**

3 Pinch the raised edge of the valve together to release the vacuum.

4 Unlock the clamps and lift up the lid.
